NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2019**

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS:

Square Global U.S. LLC (D/B/A Square Global Markets) (the "Company") was formed as a limited liability company in Delaware on April 2, 2009. The Company is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of both the Financial Industry Regulatory Authority, Inc. ("FINRA") and the Securities Investors Protection Corporation ("SIPC").

The Company is authorized by FINRA to be an exchange member engaged in floor activities, a broker or dealer retailing corporate equity securities over-the-counter, a put and call broker or dealer or options writer and a non-exchange member arranging for transactions in listed securities by exchange member. The Company did not conduct any securities business for the year ended December 31, 2019.

On September 20, 2017, the Company filed a name change with the State of Delaware and FINRA from Blue Vase Securities, LLC to Square Global U.S. LLC (D/B/A Square Global Markets). On September 29, 2017, the Company entered into a formal purchase agreement with Square Global Holdings U.S. Inc. ("SGH" and "Member") through two subordinated equity loans, effectively making them 24% owners of the Company. On February 13, 2018, the firm completed the Change in Membership process with FINRA, whereby SGH was formally approved to purchase the remaining 76% of the Company. As of December 31, 2018 the Company was wholly-owned by SGH.

The Member is fully committed to fund the Company's operations as needed in the future.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Accounts Receivable

The Company carries its accounts receivable at cost less an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts based on history of past write-offs and collections and current credit conditions. As of December 31, 2019, there is a Net Receivable balance of \$0 (\$8,830 gross receivables less \$8,830 allowance for doubtful accounts).

Revenue and Expense Recognition

ASC Topic 606, Revenue from Contracts with Customers

Effective January 1, 2018, the Company adopted ASC Topic 606, Revenue from Contracts with Customers ("ASC Topic 606"). The new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. The Company applied the modified retrospective method of adoption which resulted in no adjustment as of January 1, 2018. The new revenue recognition guidance does not apply to revenue associated with financial instruments, interest income and expense, leasing and insurance contracts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Revenue and Expense Recognition (Continued)

Significant Judgement

Significant judgement is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Revenue

The Company was inactive in 2019. There was no revenue, other than interest income, to either recognize or defer.

Income Taxes

The Company is a single member limited liability company that is treated as a disregarded entity for tax purposes. The taxable income or loss of the Company is allocated to the member. Accordingly, no provision for federal or state income taxes has been reflected in the accompanying financial statements. The Company is subject to New York City unincorporated business tax. As of December 31, 2019 no such liability was incurred for the year.

The Company accounts for uncertainties in income taxes under the provisions of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) ("Topic") 74010-05, "Accounting for Uncertainty in Income Taxes." The Topic clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. The Topic prescribes a recognition threshold and measurement attitude for the financial statement recognition and measurement of as tax position taken or expected to be taken in a tax return. The Topic provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. At December 31, 2019, the Company had no material unrecognized tax benefits.

The Company's conclusions regarding uncertain tax positions may be subject to review and adjustment at a later date based upon ongoing analyses of tax laws, regulations and interpretations thereof as well as other factors. Generally, federal, state and local authorities may examine the Company's income tax returns for three years from the date of filing.

Leases

The Company has an operating lease for office space not subject to ASC 842, according to the short-term lease exemption. The Company recognizes lease cost associated with this lease on a straight-line basis over the lease term.

Use of Estimates

The preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Accordingly, actual results could differ from those estimates and such differences could be material.
